## **SODA ASH IN FEBRUARY 2004**

Natural soda ash production in February was 852,000 metric tons (t), slightly lower than the previous month's production, according to the U.S. Geological Survey. Ending inventories were 291,000 t, 12% lower than the preceding month's inventories. Wyoming trona production in February was 1.33 million tons. Total production of chemical caustic soda was withheld to avoid disclosing company proprietary data.

Apparent consumption of soda ash in January was 533,000 t, 29% higher than the January 2003 level of 413,000 t.

Exports and imports of soda ash in January 2004 were 324,000 t and 511 t, respectively.

Soda ash statistics in January 2004, compared with those of January 2003, were as follows: production was 1% lower, imports 17% lower, exports 19% higher, ending stocks 19% lower, and apparent consumption 29% higher.

**Note:** The average value of soda ash in 2003 was \$65.21 per short ton.
